PROFESSIONAL SUMMARY

Flutter and software developer with 2+ years of experience building scalable, cross-platform applications for Android, iOS, Windows, and web. Skilled in Dart, Flutter (BLoC, GetX, Provider), REST and GraphQL APIs, and Clean Architecture. Experienced in responsive UI/UX, third-party service integration, state management, and performance optimization. Proven record delivering production applications and collaborating effectively within Agile teams.

TECHNICAL SKILLS

- **Programming Languages:** Dart, JavaScript, Python (Basic), HTML5 & CSS3.
- **Frameworks & Libraries:** Flutter, React.js, Firebase, Bootstrap, Tailwind CSS
- **Architecture & Concepts:** Clean Architecture, MVVM, Responsive Design, UI/UX Design, Performance Optimization, SDLC.
- **APIs & Backend Integration:** REST APIs, GraphQL APIs, JSON Parsing, Third-party API Integration
- **Tools:** Android Studio, VS Code, Figma, Node.js, Firebase, Git, GitHub, GitLab, MS Office

PROFESSIONAL EXPERIENCE

Software Developer

09/2025 - Present

Cave Technologies | Dubai, UAE

- Designed and developed scalable Flutter applications using GetX, BLoC, and Clean Architecture principles.
- Built and deployed 4+ production-level applications, including parking systems, accounting software, and procurement platforms.
- Integrated AI-powered features and automation workflows that reduced manual operations and improved user productivity.
- Developed responsive UI/UX components across multiple business departments.
- Collaborated with frontend and backend teams to deliver high-performance applications, and contributed to debugging, testing, and maintenance.

Flutter Developer

03/2024 - 05/2025

SAFATECH Integrated Solution Pvt. Ltd | Puducherry, India

- Developed and maintained 5+ cross-platform Flutter applications for Android, iOS, and Windows platforms.
- Integrated 15+ third-party libraries, REST APIs, and GraphQL services, accelerating feature delivery by 20%.
- Improved application loading speed by 30% and UI responsiveness by 25% through optimized state management and efficient code architecture.
- Designed responsive interfaces compatible with 20+ device types.
- Implemented 100+ test cases, achieving 99% crash-free application performance.
- Collaborated with designers and backend developers to deliver scalable business applications.

- Designed 20+ responsive UI screens in Figma and implemented them in Flutter.
- Contributed to live projects from design concept through deployment, ensuring cross-device compatibility.

PROJECTS

Parking Management System

- Built a Flutter app for parking operations with real-time updates and role-based access control.
- Integrated REST APIs and a responsive UI deployed across mobile and Windows.

Accounting System

- Developed a cross-platform accounting app with transaction management and financial reporting.
- Implemented structured data flows and exportable reports for finance teams.

Procurement Platform

- Built vendor and purchase-management modules with multi-stage approval workflows.
- Integrated document management for purchase orders and vendor records.

EDUCATION CREDENTIAL

Bachelor of Science (Computer Science)	2023
